# Welcome to the Ocean Shores Body & Soul Festival!

We are glad that you are here...If you've never been to a psychic and wellness fair before, here are a few tips that might help you get more from your visit:

- Visit all of the vendor booths. Vendors offer great prices at the fair. It's a great place to buy unique gifts for yourself and your loved ones! Pay close attention to things that call out to you.
- Decide which lectures are a must - so you can schedule your sessions around the presentations. (Schedule on next page)
- Walk around and meet the different practitioners, see who you feel a connection with.
- Give yourself permission to have several sessions. This is a great opportunity to try some new consultants and expand your experience. Notice what information is repeated.
- Have your questions prepared before your scheduled appointments, especially if you have major changes happening in your life now. Also prioritize them to make sure what you want covered gets covered.

Why should you have a Reading?

You have a life force. The challenge is reading it and learning which way to align it's energy. The future is not unchangeable. It is made up of your actions now and in the past. You control your destiny. Each action you take determines your future, much like a navigator plotting a course. A reading will give you insight to help you make decisions that will improve the quality of your life.

What can you do to ensure a positive reading?

Make sure you are comfortable with your choice of consultant.  
Know what is required of you before the consultation begins (fees, birth date, etc.)  
Trust yourself --- we are all psychic.  
Feel free to question.

How open is your life to a psychic?

Most psychics use a focal point and only gather information as requested.

How accurate is a Psychic Reading?

As each of use has free will, information is gathered on what is most probable to occur. Most readings are highly accurate, but should be used to help you achieve what is in your highest interest and not as a prediction.

So explore, relax and enjoy!

Love & Light

These classes and lectures are all included in your admission, please attend as many as you'd like!

### 11:00 NAMEOLOGY/Dolly Mae

Your name reads like a fingerprint. Each name reveals the secrets of your personality. WE choose our birth names, and we change them based on how well we feel in their vibration. Discover the gifts and challenges a name holds. For years and in thousands of readings, Dolly Mae has amazed clients by revealing information accessed through names alone. Her new book "If You Have a Name, You Need This Book\*" reveals it all. Come experience this fun and informative lecture, including free demonstration readings for audience members!

### 12:00 PRACTICAL SHAMANISM/Shiela Baker

Shiela Baker weaves Shamanism with other healing modalities such as astrology, earth-based spirituality, and psychology into a form called practical shamanism. Spirit wants us to be happy, fulfilled, and whole. In the journey process we are connected to the deep unconscious and are able to receive guidance from our personal spirit guides and allies. Shamanism connects us to Spirit in a practical way that is grounded in the present. Easily learn this profound method of healing. Unlike psychotherapy, it does not require that you re-experience your past traumas in order to heal from them. In the journey process you learn how to access your personal guide and how to develop an intimate bond with this being. Your guide is always available. If you awake at two o'clock in the morning bathed in sweat and shaking with anxiety, you don't have to wait until nine o'clock to get help from your therapist, your friend, or your mother. You can journey at any time to ask your guide for wisdom, comfort and support – and you will receive them.

### 12:00 BEING A HUMAN BEING/Denny Dwyer

Denny Dwyer facilitates the distinction of "being a human being, not a human doing"; that as a human being we are more than a body and a brain, that there is a life within the life of doing. In Natural Law we are naturally connected and in communication with ourselves and others. We do not need validation and justification. Therefore, we are free of need. Desire then guides us in the doing of life. Now free of having to do and not having to do, we are free to have life regardless of the doing. We are not created by the results of our doing. We are now free to have a complete and whole relationship with ourselves and subsequently with anyone and anything we choose. If you want to get off the Merry-Go-Round, our mission is to show you a way to restoring yourself to the full potential of what it means to be a human being!

### 1:00 VIBRATIONAL ENERGY/Kristina Bloom

Everything is composed of energy, regardless of how solid or dense it may appear. Likewise every part of us is composed of energy. The solidity of a particular matter is determined by how quickly or slowly the energy is vibrating. The logical conclusion is that if we are made of vibrating energy, then we can affect our health, spiritual condition, and emotional condition-our whole lives- with the intentional manipulation of energy vibration. Rev. Kristina Bloom, CRM will explain how our vibratory levels effect how we feel and what we can do to help ourselves using the different vibrations of color and sound energies. This promises to be a fun presentation with lots of different colors and noises to play with!

### 2:00 REALIZE YOUR POTENTIAL FOR HEALING/Dynamic Duality

Gaia energy healing helps release chronic physical, emotional and psychic maladies unresolved by conventional methods. It repairs energetic damages from surgical and dental procedures. Come explore your body-mind-spirit connections as you learn about a form of energy healing with roots tracing back to ancient cultures of Taoist tradition, Tibetan Buddhism and goddess worship. Join the team from Dynamic Duality Center for Energy Healing for this enlightening class.

### 3:00 A WALK WITH SPIRIT/Azella

Join Azella, as she channels The Cosmic Consciousness and reads an automatic writing from Mother Mary. Azella has long been a favorite in Ocean Shores. This is a class you should not miss!

### 4:00 KNOW YOUR GUARDIANS/ Suma Isis Sekgametis

Join Suma Isis Sekgametis as she presents a live "Billet Psychometry" demonstration with audience interaction. As part of this demonstration, you will write one question on a card, addressed to your Guardian Angel or to a person who has died. Suma will then hold the card and give spiritual messages and information to you.

Prudential  
Rockers  
Cookbook

A. Prudential Rockers/Cookbooks. Throughout the ages we have brought food to others in need of comfort and support. When we do not know what else to do, we cook up a batch of cookies, a pot of soup or a casserole and drop it off to a friend, loved one or co worker in times of stress, challenge or loss. It is a universal way to say "I care". In honor of our friend Cyndi Schwartz, all proceeds from the sale of this book will be donated to the American Cancer Society.
